Form 990, Part III - Additional Information

Page 2, Part III, Line 4a - Continued

The Conservation League started its Food and Agriculture program in 2007 with the goal of protecting South Carolina's small, family farms. Between 1992 and 1997, more than 400 acres of rural land were converted every day to urban uses, placing South Carolina in the top ten states in the nation for rural land loss. We quickly realized that small farmers lacked access to the infrastructure available to industrial farms, and were therefore unable to say "no" when a developer offered to buy their land. The Conservation League saw a food hub as critical to our work protecting rural landscapes and improving quality of life across the coastal plain.

The objective of GrowFood is to tap into the existing assets of small-scale agriculture to help create a stronger rural economy, spurring job creation, and building capacity in rural communities by connecting farm businesses to the thriving local food movement. The resurgence of small-scale agriculture presents a tremendous opportunity to positively impact the rural economy. Increased agricultural production leads to increased economic activity, and allows farmers to stay on their land for generations to come.

GrowFood officially opened its doors in 2011 at a warehouse in downtown Charleston. The hub has grown from marketing for 5 producers to more than 85, all in the state of South Carolina. GrowFood provides local farmers the sales, marketing, logistics, warehousing and distribution functions they need and that previously have been available only to large-scale industrial

farms. Wholesale customers range from restaurants all over metropolitan Charleston, to grocery stores and a local college. Since its opening, GrowFood has returned almost \$5.5 million to farmers.

Communities and Transportation

The objective of this program is to advocate for land conservation and quality of life in South Carolina coastal communities by advocating for sustainable urban growth patterns, efficient and clean transportation systems, and permanent land protection where appropriate. The Conservation League provides technical and professional assistance to local residents to help preserve their land and communities, advocates for good land use policies, and provides community organizing expertise.

Examples of priority projects include:

- Advocating for public transportation and mobility solutions like the Lowcountry Rapid Transit project;
- Advocating against highways, such as I-526, I-73, and Highway 41, that contribute to suburban sprawl and disproportionately impact minority communities;
- Advancing local and state resilience policies that minimize development in low-lying areas and prioritize the use of natural green infrastructure for coastal protection;
- Advancing conservation funding in counties and at the state level;
- Ensuring that wetland fill is avoided, and when necessary, adequately mitigated through land protection and restoration; and
- Working through local land use planning to establish strong urban growth and urban service boundaries (especially in Berkeley County, Johns Island,

and Horry County).

Land, Water and Wildlife

The objective of this program is to advocate for natural resource conservation to further our mission of protecting clean and abundant water, natural habitats, and the health of people and wildlife. The Conservation League accomplishes this goal by ensuring public policies are adequate and properly implemented to protect water quality and quantity, wildlife habitat, and valuable landscapes and communicating to a broad audience about how to get involved in decisions affecting these coastal assets.

Examples of priority projects include:

- Fighting inappropriately sited mines that threaten coastal resources and disproportionately impact communities;
 - Protecting beaches such as Captain Sam's Spit and Bay Point Island from irresponsible development;
 - Preventing plastic pellet pollution ("nurdles") and passing local and state laws to hold polluters responsible;
 - Opposing Clean Water Rule rollbacks;
 - Protecting our shoreline and marine habitats - such as oyster beds and saltmarsh;
 - Restoring and protecting wildlife habitat in places such as Crab Bank and Deveaux Bank and advocating for strengthening enforcement and regulations;
- and
- Advocating for resilient coastlines and prioritized land conservation that will help with marsh migration and carbon sequestration.

Energy and Climate

The objective of this program is to advocate for clean energy as components of a healthy ecosystem and quality of life, through policy reform, public awareness campaigns, and educational outreach. The Conservation League promotes energy efficiency, energy conservation, retirement of fossil fueled energy equipment, and renewable energy as the cheapest and most effective solutions to the climate, health, and social justice crises associated with our current energy system.

Examples of priority projects include:

- Creating and implementing regulatory processes that ensure fair consideration of clean energy in the planning and operation of the electricity and natural gas supply, transmission, and distribution systems;
- Establishing regulatory and financial mechanisms to promote implementation of energy efficient technologies;
- Reducing carbon emissions from dirty fuel sources, like coal and other fossil fuels, through advocacy and state policy reform;
- Reducing single occupancy cars on the road and electrifying transportation;
- Promoting market-based procurement processes that can speed the transition to cleaner energy systems; and
- Preventing offshore oil and gas exploration and drilling
